**FACULTY PRESENTATION: UNIVERSITY OF IOWA CENTER FOR NONINVASIVE BRAIN
STIMULATION**

Action requested: Receive the presentation.

Executive Summary: Dr. Boes will provide an overview of the University of Iowa Center for Noninvasive Brain Stimulation. This multidisciplinary center spans three related missions. We provide state-of-the-art clinical care, including the use of transcranial magnetic stimulation to treat depression. We advance the field through biomedical research, which spans basic research to clinical trials of new therapies. Finally, we provide educational opportunities for clinicians and researchers at all levels of training to learn the methods, science, and clinical practice of noninvasive brain stimulation.

Presenter:

Aaron D. Boes, MD, PhD
Roy J. Carver Associate Professor of Neuroscience
Departments of Pediatrics, Neurology and Psychiatry
Director, UI Center for Noninvasive Brain Stimulation
Director, Pediatric Neurology Division
